

IT'S TAX TIME AGAIN...

2021 PERSONAL INCOME TAX INFORMATION GUIDE

To help us ensure your personal income tax returns are prepared correctly and promptly, it is important to provide us with all the required information. To help you gather your tax information, we provide the following list of reminders. Please review it carefully.

PAPERLESS INITIATIVE

As part of our paperless initiative, we request that you send us your personal tax information **electronically** using the secure document transfer link provided below. **Do not send original paper documents**, but keep them for your records for 6 years as required by law.

Please organize your tax papers **by family member**, in the following order:

- All federal and Quebec slips together
- All medical information together
- All donations information together
- Investment advisor package
- All other documents

Sending Your Personal Income Tax Information

Send us your personal income tax information electronically through our new [online client portal](#). It is secure and easy to use. Please take a moment to watch our quick [tutorial video](#) or read the [step-by-step instructions](#).

Please note that the following will be sent to you by email for electronic signature through Docusign once your 2021 file is complete:

- A copy of your personal tax returns for your records;
- A copy of the prescribed authorization forms, which must be signed and returned to us **prior** to e-filing your tax returns;
- An engagement letter for signature, which outlines our terms of involvement with your personal income tax returns; and
- Authorization forms for the federal and Quebec returns, which will give us permission to discuss your tax returns with the taxation authorities and access to your file, if required. These forms are valid indefinitely. Please note that these authorization forms are different from the EFILE authorization forms mentioned above.

WHEN SHOULD YOU SEND US YOUR TAX INFORMATION?

In order to ensure that we have sufficient time to prepare your tax returns, please send us all your documents by secure upload link as soon as you have all of your tax information. If we do not receive your information by April 25, 2022, we cannot guarantee that your tax return will be completed prior to the due date of April 30, 2022.
