## COMMENTS

1. It is important to note that the tax rates can change (often in the Spring at the time budgets are tabled).
2. If a supplier is registered for GST purposes, they will have to charge: (1) GST in respect of taxable sales in Canada, and (2) HST at the applicable HST rate if the HST place of supply rules deem a supply to be made in a participating province.
3. The rules may be different on when a vendor must register for provincial sales tax purposes (in Ouebec, British Columbia, Manitoba or Saskatchewan) and charge provincial sales tax on a sale of goods in a province or on services in respect of tangible personal property. Please consult with your FL taxation services provider.

The matters highlighted in this tax memo are presented in broad general terms and, of course, cannot be applied without consideration of all circumstances. The firm will be pleased to discuss with recipients the possible effects of these matters in specific situations.
